

Applications & purposes:

The matt fabric tape with its light-absorbing, non-reflective plastic coating is suitable for fastening, marking, masking or repairing in industry, commerce or in the DIY and housework sector. On-stage and back-stage, it can be used to cover shiny backgrounds or apply temporary floor markings in the field of event and stage technology, for example in theatres, opera houses and cinemas

Characteristics

Adhesive type	nature rubber
Carrier material	PE extruded fabric
Thickness (adhesive & carrier)	0,30 mm
Peel adhesion, adhesive strength	9N/25mm
tensile strength	95n/25mm
Temperature from/to	-35° to +80°
Food contact	not tested

Storage recommendation / Shelf life

Under normal storage conditions in a room climate (approx. 50% relative humidity & approx. 20° C room temperature) the product in its original packaging has a storage period of at least 12 months after receipt by the customer.
